Year 1 Addition and Subtraction Word Problems

Problem 1: Basic Counting

Tommy has 5 toy football players. If he receives 3 more toys on his birthday, how many toy football players does he have now?

Problem 2: Simple Addition

Ella has 4 Disney princess dolls. If her friend gives her 2 more dolls, how many Disney princess dolls does Ella have in total?

Problem 3: Basic Subtraction

In a football match, there were 9 players on one team. If 3 players had to leave the match, how many players are left on that team?

Problem 4: Addition with Context

At the Disney party, there are 7 balloons. If 6 more balloons are added, how many balloons are there now at the party?

Problem 5: Subtracting from a Total

Liam had 10 football stickers. He traded 4 of them with his friends. How many football stickers does Liam have left?

Problem 6: Combining Interests

Amelia has 8 party hats for her Disney-themed birthday party. If 3 more hats are made by her friends, how many party hats does she have altogether?

Problem 7: Mixed Addition and Subtraction

During a football game, there were 12 fans cheering in the stands. If 5 fans leave the game but 4 more fans arrive, how many fans are in the stands now?

Problem 8: Challenge with Multiple Steps

At a Disney party, there are 15 children playing games. If 6 of them leave to get snacks, but then 3 more children arrive to join, how many children are playing games now?

Problem 9: Real-Life Context with Change

If there were 18 footballs in the gym and 7 were borrowed by the school's football team, how many footballs are left in the gym?

Problem 10: Advanced Mixed Operations

At a Disney party, there are 14 cupcakes. If 5 cupcakes are eaten, and then 4 more cupcakes are brought out, how many cupcakes are there now at the party?

Year 2 Maths Word Problems: Addition and Subtraction within 100

Basic Addition: Lucy has 15 football stickers. She buys 12 more stickers at a shop. How many stickers does Lucy have now?

Basic Subtraction :There are 40 balloons at a Disney party. 18 balloons burst during the party. How many balloons are left?

Intermediate Addition :A football match has 25 fans on one side and 20 fans on the other. How many fans are there altogether?

Intermediate Subtraction :Tom had 70 chocolate cupcakes for a Disney-themed party. He gave 15 cupcakes to his friends. How many cupcakes does Tom have left?

Addition with Larger Numbers: At a football training session, 32 children were present in the morning and 28 in the afternoon. How many children came to training that day?

Subtraction with Larger Numbers: There are 85 toy cars in a Disney shop. If 24 cars are sold, how many toy cars are still in the shop?

Addition: A football team scored 45 goals in the first half of the season and 32 goals in the second half. How many goals did the team score in total?

Problem: Sarah is organising a Disney party. She invites 36 children to the party. If 9 cannot attend, how many children will be at the party?

Problem with Context:A football club has 65 season tickets remaining. If 20 new season tickets are sold and then 15 are returned, how many season tickets does the club have left?

Maths (additional activities)

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

Use the 100 square to practise counting forwards and backwards in 2, 5, 10's from any given number. Write the numbers down in your book.

Year 2: Practise counting forwards and backwards in groups of 2, 3, 5 and 10.

Improve your score on TTRock Stars!

Reading time

Today, I'd like you to finish reading your home reading books (if you haven't done so already) and ask a parent to sign it.

Below are some links to our RWI Spelling and phonics sessions. Please choose the sounds that you want to learn or practise and click on the video links to access the teaching videos.

Set 2
